John D. Harlepas
Fairfax, Virginia 22030

Career Summary

An user-focused programmer with a passion for discovering solutions to the problems facing businesses in legacy and emerging markets by utilizing state-of-the art technologies. His background in government, education and technology is leveraged to provide unique perspectives on how end-users interact with websites and software platforms. His energy, imagination, and hard work are well suited to work alongside other talented IT professionals. At the moment, this programmer is looking for a position with a company that seeks to create new and inspiring technologies.
